Volunteer to create joy in life and aging

Through volunteers, like you, we can make it possible for seniors to do more of the things they love and feel more connected to our community. And we promise that you will discover how helping others adds meaning and joy to your life too.

We will provide direction and assistance to make the experience valuable for both you and the senior you are engaging with and we will look for ways to maximize your involvement. Enquire today about how to volunteer for a meaningful and enjoyable role at Gemstone!

Vision & Mission Statement

At Gemstone Care Centre, it is our vision to Create Joy in Life and Aging and we achieve this vision through our mission of caring, connecting and celebrating.

We want people to join our community and enthusiastically refer their family members, friends or colleagues to join in too. We are dedicated to quality and safety through our mission to provide **exceptional care & service.**

Services for Community Groups

We have plenty of gorgeous space available to host meetings, programs, classes and/or events—and we welcome community groups to partner with us. We are committed to reaching out, strengthening connections and bringing the community closer to our seniors.

Together, we are a community!
